GIS 3: Referencing Specific Versions of Data
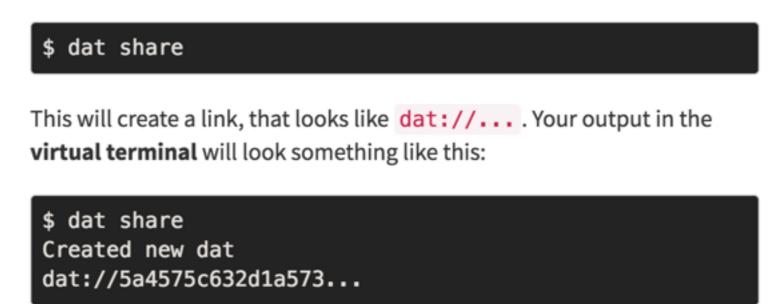

Type the following in the **virtual terminal** in the browser window:

```
$ dat share
```

This will create a link, that looks like `dat://...`. Your output in the **virtual terminal** will look something like this:

```
$ dat share
Created new dat
dat://5a4575c632d1a573...
```

zero falsey fix resolves **#1** and resolves **#3**
